

LogiCO2-Scout

Portable Bluetooth CO2-sensor for your smartphone

Low cost, pocketsized and can measure CO2 Remotely

Introducing the revolutionary LogiCO2-Scout, a pocket-sized CO2-detector that can be rolled into a basement or other risk area. It connects wirelessly to your Android or Apple IOS smartphone where the measured CO2 level is clearly displayed, indicating if there is a dangerous concentration in the area or not. You do not need to enter the risk area to do it.

Sofisticated technology made simple and logical.
It can be a life saver.

The LogiCO2-Scout is the logical choice when deciding which Personal CO2 detector to use.
Free app is available for both Android and Apple IOS.
