PORTABLE GAS MONITOR MX6

DESCRIPTION, APPLICATION

MX6 is a portable gas monitor capable of continuously and simultaneously monitoring up to 6 gases. Each gas reading is displayed on a full-color graphic LCD display.

The rugged enclosure is extremely durable and resistant to water and radio frequency interference. A protective concussion-proof overmold protects the unit from extreme abuse in a variety of harsh industrial environments. Monitor allows the user to step through menu and settings and functions with five-way navigation button. It even supports the option of on-board graphing for easily interpreted direct readings and recorded data.
